Description

SIGGIEWI - A structurally sound 11-room corner Townhouse located in a UCA area, benefiting from no tax on purchase. This spacious home includes a 2-car garage and a well-preserved layout.

On the ground floor, you are welcomed by an entrance hall that leads to an office, a living room, and a kitchen and dining area, which overlook an internal yard featuring a well. A guest toilet and the garage are also accessible on this level.

A traditional stone staircase leads to the first-floor landing where you'll find a double bedroom with a balcony, another interconnected double bedroom, a separate living room with a Maltese balcony, the main double bedroom, and a bathroom.

The second floor features a laundry room and provides access to the entire roof.

Being freehold and full of potential, this is a rare find in a historic zone.
